

LM Facial Aesthetics

# Treatments & Price List

“I believe beauty is so much more than skin deep: our skin reflects our inner health and happiness.”

# Skin Consultation

## Skin Consultation

£30

Your journey begins at LM Facial aesthetics with an in-depth skin consultation with Louise, our medically trained professional.

## Skin Analysis

This is a very important stage of your skin consultation as this will help to identify and address hidden sun damage, pigmentation, blocked pores, acne, wrinkles and fine lines. By looking at your skin through our next generation skinscope scanner we can precisely evaluate how much damage has occurred underneath your skin. This allows Louise to prescribe a clinically proven skincare programme based on your current skin condition and needs.

Louise is focused on listening to you and your skin concerns during a face-to-face consultation, so she can create a bespoke skin programme that will meet all your goals, timescales and budget.

# HydraFacial

HydraFacial is more than just a facial. It is an experience, a feeling, a confidence booster.

We believe that beauty is a feeling, not just a physical attribute, and the results from HydraFacial will leave you ready to face life, face first. HydraFacial technology is unique and so are the results it achieves. The treatment delivers instant results that you can see and feel, and improves your skin health over time.

## The Treatment

Hydrafacial uses patented technology to cleanse, extract and hydrate. Hydrafacial super serums are made with nourishing ingredients that create an instantly gratifying glow

### DETOX

Begin with Lymphatic drainage that improves circulations of the lymph system and helps climates toxins

### CLEANSE + PEEL

Uncover a new layer of skin with gentle exfoliation and relaxing resurfacing

### EXTRACT + HYDRATE

Remove debris from pores with painless suction. Nourish with intense moisturisers that quench skin

### FUSE + PROTECT

Saturate the skin's surface to maximise your glow

### REJUVENATION

Finish with Dermalux LED light therapy that will use red, infrared and blue LED light to reduce redness and further stimulate collagen, supporting the natural production of vitamin D.

hydradacial

## Which treatment should I have?

Your skin isn't like everyone else's. So your treatment shouldn't be either.

### Skin Health for life HydraFacial

1 hour · £130

The original 6 stage treatment includes: Lymphatic Drainage - Exfoliation - Skin Peel - Extractions - Antioxidants and Hydration Infusion and Dermalux LED light therapy.

### Treatment Booster menu

We can effectively target specific areas of concerns with our specialised skin boosters. Skin boosters add an additional stage to the original 6 step treatment as discussed above, We will discuss booster options with you at your skin consultation prior to treatments however you can see the options below.

### Age Refinement HydraFacial

1 hour, 15 mins · £160

Our Age Refinement HydraFacial helps to smooth the appearance of fine lines and wrinkles and enhance the skin's elasticity.

### Radiance HydraFacial

1 hour, 15 mins · £160

Our Radiance HydraFacial is our Pigmentation treatment. The treatment works to reduce brown spots, even the skin tone and prevent new pigmentation forming.

### Restorative HydraFacial

1 hour, 15 mins · £160

Our Restorative HydraFacial is designed to boost collagen and elastin production. It will diminish the appearance of fine lines and capture and remove toxins and irritants.

### Glow HydraFacial

1 hour, 15 mins · £160

Our Glow HydraFacial is our ultimate Hydration treatment. It will hydrate, repair and radiate your skin leaving it glowing!

### Serenity HydraFacial

1 hour, 15 mins · £160

Our Serenity HydraFacial is for those who suffer with Rosacea, redness or sensitised skin. It will help to relieve the signs of redness, replenish the skin and support the skin's barrier function.

### The Acne Protocol HydraFacial

1 hour, 15 mins · £160

Specifically designed to treat acne, blemishes and blackheads.

### Hydra-planing treatment

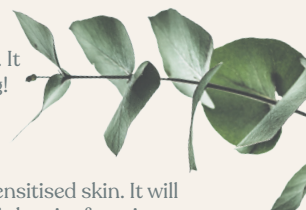

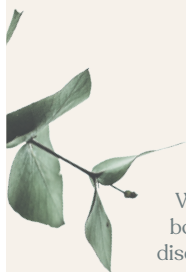

1 hour, 30 mins · £160

Adding dermaplaning into the original 6 stage HydraFacial gives your skin the wow factor. Perfectly smooth and extra glow, perfect before an event.

### Skinceuticals HydraFacial

1 hour, 30 mins · £180

Skinceuticals signature antioxidant treatment with HydraFacial. Our 10 step treatment includes: Lymphatic Drainage - Exfoliation - Skin Peel - Extractions - Skinceuticals Vitamin C Firming Masque - Vit C Infuse - Antioxidant and Hydration Infusion - Dermalux LED Light Therapy - Skinceuticals Correct & Protect

The ultimate package to treat your skin. Additional to the 6 stage treatment we include a Skin specific booster plus the Perk Eye and Perk Lip Treatment with take home serums.

## HydraFacial Back Treatment

1 hour · £160

Just like the face treatment but for the back. Perfect for congested, breakout prone skin or before an event.

## Dermaplaning add on

15 mins · £35

Remove 'peach fuzz' and ensure even deeper product penetration from your HydraFacial treatment.

## Eye Perk add on

15 mins · £30

## Lip Perk add on

15 mins · £30

# Microneedling

## Derma Pro Microneedling

1 hour, 30 mins · £200

At LM Facial Aesthetics, we use the Derma Pro Micro-needling System. The Derma Pro is a unique Micro-needling pen that creates thousands of microchannels in the skin to stimulate cell communication and renewal providing rejuvenation. During the treatment we use the most innovative Meso-Cocktails chosen specifically for your skin. The cocktails contain active ingredients that provide both long term benefits and immediate improvement. To truly enhance the results we finish our Micro-needling treatment with our Dermalux Light Therapy. For optimal long lasting results we recommend a course of 6 treatments performed monthly.

## Microneedling Eye Rejuvenation

45 mins · £100

Using the multi action Meso Eye Cocktail we work to diminish the signs of ageing and revitalise the whole eye area. The cocktail contains botox like peptides and calming agents to reduce puffiness. This treatment is suitable for crow's feet, laxity, dark circles, puffiness and is a great alternative for botox. This treatment includes: Lymphatic Drainage - Microneedling with Meso-Cocktail - Phyto Corrective Mask - Dermalux Light Therapy - Protect. A course of 6 is recommended, please discuss this with your practitioner.

## Microneedling Eye Rejuvenation ADD ON to full Derma Pro microneedling treatment only

30 mins · £50

This can only be booked as an add on to our full face Derma Pro microneedling treatment. Please ensure you have also selected the Derma Pro microneedling treatment when booking.

Microneedling neck treatment ADD ON  
to full Derma Pro micro needling treatment only

30 mins · £50

We can treat the neck with microneedling, this is an add on to the full face Derma Pro Microneedling treatment. Please ensure you have also selected the full treatment when booking.

Microneedling course of 6

1 hour, 30 mins · £1000

Course of 6 microneedling sessions

Microneedling course of 6 including eye and neck

1 hour, 30 mins · £1250

Course of 6 session

Face, neck and eye

## Dermalux LED Light Therapy

Multi Award winning Dermalux® is the latest generation in LED Phototherapy combining clinically proven wavelengths of light delivered at safe, therapeutic doses to naturally stimulate skin rejuvenation and resolve problem skin conditions for the face and body. Dermalux® systems ensure 'optimised' penetration of light into the skin to energise cellular functions with excellent results for skin rejuvenation, acne and spot prone skin, pigmentation and inflammatory conditions such as rosacea, psoriasis and dermatitis.

Acne Protocol Course of 12

50 mins · £800

Treatment includes: Double cleanse -  
Lymphatic drainage - Dermalux LED Light Therapy -  
Hydrate & Protect

## Skin Peels

### BioRePeel

1 hour · £100

An innovative peel treatment. BioRePeel is an innovative treatment, using patented 2-phase technology. This provides a bio-stimulating, revitalising and peel-like effect. The combination of these components results in a mild exfoliation, stimulating the biosynthetic process, restoring the structure of the skin. This process decreases damage from UV light, pigmentation and acne scars and effectively preventing the ageing of skin. The treatment is suitable for all skin types, including those with fine line wrinkles, acne, fresh scarring and blackheads. This treatment includes: Double Cleanse - BioRePeel - SkinCeuticals skin specific Mask - Dermalux LED Light Therapy - Hydrate & Protect

### SkinCeuticals Gel Peel GL

45 mins · £80

Ideal entry-level peel in the SkinCeuticals professional treatment range. It is ideal as an initial peel for sensitive skin and helps to prepare the skin for extractions. In essence, if you haven't had a professional chemical peel treatment before, Gel Peel GL is a lovely introduction. The lactic acid ingredient has an exfoliating action in peels, but also a moisturising function, which makes this peel good for menopausal women, frequent travellers – anyone with drier skin, as it reveals newer epidermal layers and helps moisturise the skin. Gel Peel GL can be used for any gender, any age group and any Fitzpatrick skin type and is used to treat problematic skin (with or without breakouts), photodamage and to improve skin elasticity and wrinkles. For optimal results, we recommend booking a course of 4-6 Gel Peel GL treatments, each spaced 10-14 days apart. In general, once the skin has returned to 'normal', it is possible to repeat the peel.

### SkinCeuticals Pigment Balancing peel

1 hour · £125

This peel is at the other end of the SkinCeuticals professional treatment portfolio spectrum: deeper penetrating peel, which combines brightening and anti-inflammatory agents with a peeling solution to target hyperpigmentation, improve photodamaged skin and treat melasma and acne. For concerns around pigmentation, the simple 'stretch test' can be used as an initial indicator of pigmentation depth - using the fingers to stretch a small area of skin. If the pigmentation goes lighter, the pigment is located at the epidermal skin layer, or if there is no change, the pigmentation is located more deeply in the dermal skin layer. This helps determine what level of peel is required to treat effectively. We recommend booking a series of six treatments, spaced 10-14 days apart for maximal results.

# Dermaplaning

## Dermaplaning

45 mins · £45

Dermaplaning is a form of manual exfoliation. A sterile blade is stroked along the skin at an angle to gently remove dead skin cells from the congested top layer of your skin. Dermaplaning also temporarily removes the fine vellus hair of the face, leaving a smooth surface. This procedure allows homecare products to be more effective, reduces the appearance of fine lines, evens skin tone and assists in reducing milia, as well as closed and open comedones, and minor breakouts often associated with congested pores. Suitable for all skin types especially for clients with coupe rose, sensitive skin or anyone suffering from allergies that prevent the use of microdermabrasion or skin peels.

## Deluxe Dermaplaning

1 hour · £65

This treatment includes: Double cleanse - Dermaplaning - Skinceuticals Bespoke Treatment Masque - Antioxidant serum - Hydrate & Protect

## LM Facial Aesthetics Luxury Dermaplaning Facial Treatment

1 hour, 15 mins · £105

This treatment includes: Double cleanse - Skinceuticals Gel peel - Dermaplaning - Skinceuticals Bespoke treatment masque - Dermalux LED Light Therapy - Antioxidant Serum - Hydrate & Protect

# Botulinum Toxin (Botox)

## Botox initial consultation

30 mins

Consultation for new clients who have not had Botox previously at LM Facial aesthetics. This assessment is to discuss if this is an appropriate treatment for you and discuss treatment. A further prescriber session is required prior to having treatment. This treatment will help soften existing lines/wrinkles however we are unable to guarantee all lines/wrinkles will completely disappear. The effects of this treatment is only temporary and re treatment will be required every 3-4 months. Treatment is also subject to a full consultation with a Nurse Prescriber. as Botulinum toxin is a prescription only medicine.
